2. Objective

The objective of this Regulation is to establish policies and procedures with regard to the imposition of tax on the value of goods and services.

CHAPTER 1: REGISTRATION

- (b) Persons carrying on taxable activities that fall within Section 15 of the Act shall submit a completed “GST Registration: Tourism Goods and Services” (MIRA 104) form together with the information and documents specified therein.

4. No requirement to re-register taxable activities in the tourism sector

Taxable activities registered with the MIRA under the Tourism Goods and Services Tax Act (Law Number 19/2010) by the date of commencement of the Act shall not re-register.

5. Persons required to register

- (a) Suppliers of goods and services referred to in Section 16 of the Act shall register with the MIRA in accordance with Section 56 of the Act, in the name of the person granted with the permit by the relevant Government authority or, if no such permit is granted, in the name of the person conducting that business.

- (b) Suppliers of tourism goods and services referred to in Section 15 of the Act, conducting business with a permit from the Tourism Ministry, shall register with the MIRA in the name of the person granted with the permit by the Ministry.
- (c) Suppliers of tourism goods and services referred to in Section 15 of the Act, other than those referred to in subsection (b), shall register with the MIRA in the name of the person granted with the permit by the relevant Government authority or, if no such permit is granted, in the name of the person conducting that business.

6. Combined registration

Unless otherwise specified in this Regulation, a taxable activity required to be registered with the MIRA under the Act shall be registered to include all taxable activities undertaken in the Maldives by the person carrying on such activity.

7. Separate registration

- (a) Notwithstanding Section 6 of this Regulation, if a taxable activity undertaken by a person required to be registered fulfils the following requirements, an application for registration can be made for such taxable activity separate from other taxable activities carried on by such person, in a manner that does not contradict Section 3(c) of this Regulation:
 - (1) Accounts with respect to such taxable activity are maintained separately from other taxable activities carried on by such person; and
 - (2) Such taxable activity is located on a different island from where other taxable activities carried on by such person are located, or the nature and type of such taxable activity is different from that of other taxable activities carried on by such person.
- (b) Notwithstanding subsection (a), where a person authorised with a permit by the relevant Government authority for the establishment of a tourist resort, tourist hotel, tourist guesthouse, tourist vessel, picnic island or yacht marina, conducts another business providing tourism goods and services on one of those establishments, it shall be registered together with the establishment on which such business is conducted.

8. No requirement to register persons importing goods for a specific purpose

Notwithstanding other provisions of this Regulation, for the purpose of Section 51(a)(4) of the Act, the following importers of goods into the Maldives shall not register with the MIRA under the Act:

- (b) Every registered person shall display the GST Registration Certificate provided by the MIRA in a conspicuous place at the business premises of all taxable activities carried on by such person, to indicate that the person is registered for GST.

11. Manner in which registration threshold shall be determined

In determining the registration threshold of MVR 1,000,000 (One Million Rufiyaa) specified in Section 51 of the Act, the value of goods and services supplied through taxable activities carried on by a person in the tourism sector, referred to in Section 15 of the Act, shall not be included.

12. Date on which levying of tax commences

- (a) Persons required to register with the MIRA under Section 51 of the Act and persons applying for voluntary registration under Section 53 of the Act shall charge tax in accordance with the Act and this Regulation from the date specified in the GST Registration Certificate issued under Section 10(a) of this Regulation.
- (b) Where the MIRA believes that the objective of a transaction conducted by a person required to register with the MIRA under Section 51 of the Act or by a person applying for voluntary registration under Section 53 of the Act prior to the date specified in the GST Registration Certificate is the avoidance of tax, the MIRA may, at its discretion, require that person to account for tax on that transaction, calculated by using the formula in Section 13(c) of this Regulation.

- (c) For the purpose of Section 51(f) of the Act, “date of commencement of business” means the date on which a person is granted the permit by the relevant Government authority to conduct business or, where such a permit is not required, the date of commencement of business.
- (d) For the purpose of Section 51(g) of the Act, “date of commencement of the import activity” means the date on which a person is granted the permit by the relevant Government authority to import goods.

13. Prohibiting collection of GST without registration

- (a) It shall be an offence for any person to charge tax, if such person is not registered with the MIRA in accordance with the Act and this Regulation, or before the date specified in the GST Registration Certificate (where such person is registered), or after such person’s deregistration.
- (b) If a person required to register with the MIRA under Section 51 of the Act fails to apply for registration within the period specified in the Act, such person shall submit a tax return and pay tax to the MIRA on the value of goods and services supplied from the date following the date required to apply for registration, assuming that the applicable amount of tax has been included in the consideration received for such supplies.
- (c) Where a person required to register with the MIRA under Section 51 of the Act or a person required to charge tax as a result of voluntary registration under Section 53 of the Act has failed to charge tax on a transaction when required to do so under the Act and this Regulation (whether or not such person is a registered person), the amount of tax payable by such person to the MIRA in respect of that supply shall be an amount calculated using the following formula:

$$\text{Amount of consideration received for the supply} \times \frac{t}{1+t}$$

where t is the tax rate specified in Section 15 or Section 16 of the Act that applies to the supply.

- (d) If tax is charged by a person not authorised to do so under the Act and this Regulation, or if tax is charged on a non-taxable good or service, or if tax is overcharged, unless such tax is refunded to the recipient of the supply, the Commissioner General shall have the power to require such amount to be paid to the MIRA.

CHAPTER 2: TIME OF SUPPLY

14. Time of supply

Unless otherwise specified in this Regulation, the time of supply in relation to goods or services supplied shall be deemed as the time at which a tax invoice or receipt or credit note or debit note is issued or at the time at which the full or partial payment for such goods or services was made, whichever comes earlier.

15. Advance payments and deposits

The time at which an advance payment or deposit or a part of it is received for a specific good or service shall be deemed to be the time specified in Section 17(a)(2) of the Act.

16. Refundable deposit

Tax shall not be payable on refundable deposits which have been collected for the purpose of compensating for any likely loss or damage to the property of a registered person and which would be refunded in full to the recipient of the property provided such property is not lost or damaged.

17. Failure to utilize goods or services after payment

Where a person who has made an advance payment or paid a deposit for the supply of a good or service fails to utilize such good or service, and such advance payment or deposit is refunded to such person, and tax has been paid on the amount refunded by the registered person, then the registered person may set off such tax paid on the amount refunded from the tax payable for the taxable period in which such failure to utilize the good or service occurred.

18. Time of supply of goods and services supplied to related parties

A supply of goods and services to a related party takes place:

- (a) The issue or sale of a voucher or other such thing shall be deemed as a supply of goods and services.
- (b) Where the consideration for a supply of goods and services is the redemption of a voucher or other such thing, the time of supply of the goods or services is the time of supply of that voucher or other such thing.
- (c) Where the consideration for a supply of goods and services is partly the redemption of a voucher or other such thing and partly other consideration, the time of supply of the goods or services is:
 - (1) to the extent that the consideration is redemption of the voucher or other such thing, the time determined in accordance with subsection (b);
 - (2) to the extent that the consideration is not redemption of the voucher or other such thing, the time determined in accordance with Section 17 of the Act.

21. Time of supply where consideration for a supply is points gained in a loyalty scheme

- (a) Where the consideration for the supply of goods and services is the redemption of points gained by the recipient in a loyalty scheme, the time of supply of the goods and services is the time that the loyalty points are redeemed.
- (b) Subsection (a) applies whether or not the operator of the loyalty scheme is the supplier of the goods and services.

22. Time of supply where consideration is for participation in a lottery

- (a) Where a person pays an amount to participate in a lottery, the amount of money paid to participate is treated as a payment for the supply of services by the conductor of the lottery.
- (b) The time of supply of the services specified in subsection (a) is the time that the person pays the amount of consideration to participate in the lottery.

23. Preparing a tax invoice or receipt

- (a) A registered person shall issue a tax invoice or receipt within 3 (three) days from the following dates, for all goods supplied:

24. Issuing credit notes and debit notes

- (b) Where a credit note or debit note in relation to a good or service supplied by a registered person is not issued within the period specified in subsection (a), that transaction shall be included in the tax return for the taxable period to which the time of supply specified in Section 17 of the Act relates.

CHAPTER 3: VALUE OF SUPPLY

25. Value of supply of goods and services supplied to related parties

- (a) The value of supply of goods and services supplied to related parties shall be:
 - (1) such amount as, with the addition of the tax charged, is equal to the open market value of the good or service, if the supply is for the supplier's own consumption;
 - (2) such amount as, with the addition of the tax charged, is equal to the amount paid by the recipient of the good or service, if the recipient is a related party who is also registered;

- (3) such amount as, with the addition of the tax charged, is equal to the higher of the amount paid by the recipient of the good or service and the open market value of the good or service, if the recipient is a related party who is not registered.
- (b) For the purpose of the Act and this Regulation, “open market value” means the consideration in money that the supply of a good or service would generally fetch if supplied in similar circumstances in the Maldives at the date of supply, being a supply freely offered and made between persons who are not associated.
- (c) Where the open market value of a supply of goods or services cannot be determined under subsection 25(b), the open market value is the consideration in money that a similar supply would generally fetch if supplied in similar circumstances in the Maldives at the date of supply, being a supply freely offered and made between persons who are not related.
- (d) Where the open market value of a supply of goods or services cannot be determined under subsection (b) or (c), the open market value is determined in accordance with a method approved by the MIRA which provides a sufficiently objective approximation of the consideration in money that could be obtained for that supply.
- (e) For the purpose of subsection (c), “similar supply” means any other supply of goods and services that, in respect of the characteristics, quality, usage, quantity, functional components, materials, and reputation, is the same as, or closely or substantially resembles the supply of goods and services made by the supplier.
- (f) The open market value of a supply includes the tax charged on such goods and services under the Act.
- (g) Where goods and services are supplied indirectly via another person that is related to the supplier of the goods and services, the consideration for the transaction shall be the greater of the amount referred to in Sections 19(a) and (b) of the Act that the person:
- (1) who enjoys the benefits of the goods or services pays any person for that benefit; or
 - (2) that is issued with a tax invoice for the supply of the goods or services pays for the goods or services.

26. Value of supply of goods and services supplied from a machine operated by coins or tokens

The value of supply of goods and services supplied from a machine or metre or other device operated by coins or tokens shall be such amount as, with the addition of the tax charged, is equal to the value of the coins or tokens.

27. Value of supply where consideration for a supply is voucher or other such thing

The value of the supply of goods and services supplied in consideration for the redemption of a voucher or other such thing shall be such amount as, with the addition of the tax charged, is equal to the value of the voucher or other such thing.

28. Value of supplies involving a loyalty scheme

(a) Where an amount of consideration is paid for a supply of both goods and services and points in terms of a loyalty scheme, the whole amount of the consideration is attributable to the supply of the goods and services and no amount of the consideration is attributed to the loyalty points.

(b) The value of the supply of goods and services where the whole or any part of the consideration for the supply is the redemption of points gained in a loyalty scheme, shall be such amount as, with the addition of the tax charged, is equal to the open market value of the same supply to a person who pays only money for the supply.

29. Value of supply where consideration is for participation in a lottery

The value of supply of a good or service where consideration is for participation in a lottery shall be such amount as, with the addition of the tax charged, is equal to the higher of the open market value of the good or service and the total consideration received from participants.

30. Tourism tax not being part of value of supply

Tourism tax collected under the Maldives Tourism Act (Law Number 2/99) is a deduction allowed under Section 36(a) of the Act and hence, such tax collected for a given supply shall not form part of the consideration for such supply.
